

Preparing for your Reptiles Alive! LLC Show!

Your Live Animal Show from Reptiles Alive! LLC will be wildly exciting and educational. To help you prepare for your show, please read the following:

1. Close PARKING must be provided. We will **not** perform your show if no close parking is provided.
2. Please allow the educator access to the performance area at least 30 minutes prior to the show start time.
3. Our shows are best performed from an elevated stage. If no stage is available, we can set up at one end of a room where there are no doors being used behind or to the side of the performance area.
4. Outside shows can only be presented when the temperature is at least 60 degrees and there is complete shade for the performance area.
5. Electrical access must be available within 25 feet of the performance area.
6. Please provide tables -- either two 6 foot tables or one 12 foot table.
7. *If there are STAIRS, the educator may need help loading and unloading.*

If you are having Reptile Encounters along with your show:

1. Please provide an extra table.
2. Remember, we will not allow hands-on contact with a live animal if food or beverages are being served.
3. Hand washing facilities must be available in order for us to allow hands-on contact with live animals.
